Allowable Subject Matter

2. Claims 1-11, 14-33, and 41-46 are allowed.

3. The following is an examiner's statement of reasons for allowance: Regarding claims 1, 41, and 42, prior art fails to teach or suggest a digital security camera capable of generating and transmitting digital high resolution image signals, in both full motion video format and still image frame format, wherein the camera includes a plurality of transducers adapted for collecting high resolution image signals, as well as first and second multiplexers for merging still and full motion video data into a combined data signal. In addition, each image transducer has a still frame compressor, and a motion compressor, associated therewith, and positioned between the image transducer and the second multiplexer. With respect to claims 43-46, prior art fails to teach or suggest a digital security camera capable of generating and transmitting digital high resolution image signals, in both full motion video format and still image frame format, wherein the camera contains the housing features, for housing the plurality of transducers, as described in part "b" of claims 43-46, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
